

Got Rid of My Corns With Magic "Gets-It"

Simplest Corn Cure in the World—No Pain, No Fuss—New, Sure Way

When corns make you almost "die with your boots on," when you've soaked them and picked them and sliced them, when corns well-

Why Have Corns At All When "Gets-It" Removes Them The New, Sure Way?

ing salves, and tapes, bandages, and plasters that make corns pop-eyed have only made your corns grow faster, just hold your heart a moment and figure this: Put two drops of "Gets-It" on the corn. It dries at once. You can put your shoe and stocking on right over it. The corn is done. It makes the corn come off clear and clean. It's the new, easy way. Nothing to stick or press on the corn. You can wear smaller shoes. You'll be a joy-walker. No pain, no trouble, except no substitutes. "Gets-It" is sold by druggists everywhere. Be a bottle, or sent direct by F. G. Russell & Co., Chicago, Ill.

Sold in Barre and recommended as the world's best corn remedy by F. G. Russell & Co., Chicago, Ill.

WOULDN'T ORDER VERDICT

For Rutland Railroad in Suit Brought for Child's Death.

Rutland, April 13.—Judge Frank L. Fish in Rutland county court yesterday overruled a motion that a verdict be directed for the defendant in the case of Louis Johnson, administrator of Hilda Johnson of Center Rutland, vs. the Rutland railroad. Hilda Johnson, aged seven years, was killed by a train at a crossing here on Sept. 29, 1915, while passing along over the tracks. Her relatives want \$5,000 damages on the ground that the railroad was negligent in not having the crossing guarded by a flagman or signal. Railroad counsel asked for the verdict on the ground that the plaintiff's evidence failed to show that the child was struck while in the public highway or that it had not been shown that she used the proper caution to look and listen on approaching the crossing. No one witnessed the accident.

The Treatment of Influenza or La Grippe

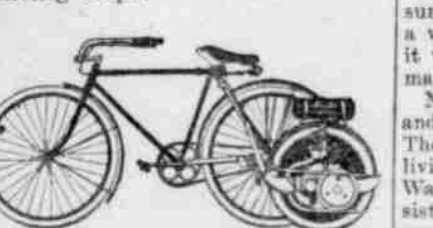

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell, of New York City, says it is concluded that too much medicine is both unnecessary and injurious. When called in a case of La Grippe, the patient is usually seen when the fever is present, as the child who occasionally suffers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts. "Acetone" or citrate of magnesia. For the high fever and severe headache, pain and general soreness, one anti-kennia tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unexcelled for headache, neuralgia and all pains.

How to Maintain Soil Fertility Without Potash

Farmers are finding it practically impossible to secure potash, or any mixed fertilizer in which potash is found in any reasonable quantities, because of the war in Germany. One of the cheapest and best substitutes is made right here in Vermont; we refer to the raw ground bone put up by C. S. Page of Hyde Park. This material is guaranteed to be absolutely free from adulteration, and when used alone or in combination with chemicals like nitrate of soda and acid phosphate, it has a record of giving splendid results.

Send a postal to Mr. Page, with the request therefor, and he will send you free, a formula for a mixture which has been approved by the director of the Vermont experiment station, as being a very desirable "general purpose" mixture. He will also give you the cost of the ingredients, full directions for mixing, etc.—Adv.

This wonderful little motor will take you on your fishing and hunting trips.

Will make 100 miles on one gallon gasoline. Ask us for demonstration.

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

Mrs. C. I. Harvey and Mrs. Lyman Priest, both of Waterford, each have a bridal rose bush. Mrs. Harvey's containing 62 buds and Mrs. Priest's 75.

George W. Chapin, employed in Stow for the past two years, has been engaged as manager of the 400-acre farm belonging to the Clark estate in Milton.

An addition is to be built to the banking building of the People's Trust company in Morrisville to make room for a directors' office and a private office for one of the bank's officers.

Mr. and Mrs. H. M. Cornell celebrated their golden wedding anniversary at their home in Jeffersonville Tuesday. The sum of \$72 in gold was presented them.

Alexander Dunnett of St. Johnsbury is to be Memorial day orator at Cabot, and Guy W. Hill of the same place will be the speaker on that day in Lyndonville.

The horse barn on the farm in Jeffersonville owned by Charles Henderson was burned last Sunday, together with three valuable horses, a shepherd dog, and furnishings. The origin of the fire is unknown.

Will Sargent fell from a ladder in his barn in St. Johnsbury recently and was stunned and considerably cut up, a gash being cut in his upper lip, one under his chin, and his left wrist and knee being badly sprained.

Mrs. W. D. White is slowly recovering at her home in Ryegate from the effects of using kerosene to hurry up a fire. The can exploded and the blazing liquid was thrown over Mrs. White, burning her face, hands and one limb badly.

The older boys of Bennington are behind a scheme for hiring a competent man to take charge of sports in that place this summer. They are hoping to rent Morgan park for the season, to sink a good-sized swimming pool and to secure other apparatus for keeping up athletic activities during the summer.

Harry E. Perrigo, formerly of St. Johnsbury but now of Kansas City, has perfected an invention for capturing the electricity of the air and using it for lighting and heating purposes. Mr. Perrigo has been working on his invention for a year and it is now ready for general use.

A few days ago Carl Remick of Waterford shot a fox near his home and after following the tracks to a hollow tree found there five young foxes not over 24 hours old, about the size of kittens. He took them to his house and a cat, the mother of three kittens, is giving them the same attention and care as her own family. Though they are red foxes, their color now is nearly black. Their noses are very long, but aside from that they look much like kittens.

While employees of Matthew Butler were absent from his sugarhouse in East Wallingford for a time last Saturday evening, it is alleged that some person entered the place and took about 25 gallons of new maple syrup, valued at \$125 a gallon. A small portion of the syrup was in cans but the rest was in a tank and the thief must have had a large receptacle. He evidently used a vehicle of some kind to transport his plunder. No arrests have been made yet, but officers are investigating the matter.

Little Girl Burned to Death.

Nora Trevarrow, five, daughter of Mr. and Mrs. William Trevarrow of East Dover, was so badly burned Tuesday forenoon while at play near her father's sugarhouse that she died about 8 o'clock Wednesday evening.

While Mr. Trevarrow was boiling sap on his farm on Adams hill, which is in Newfane, the little girl and a brother, who is a small boy, started a fire under a small stone arch which the children had built, and the girl's clothing caught fire.

Scorched by the children were Nora Trevarrow, who rushed out of her sugarhouse to find the child enveloped in flames. Her clothing was nearly burned off when her father reached her.

Dr. L. B. Gordon of Williamsville was summoned, and he found the girl to be in a very serious condition. From the first it was realized that her recovery was a matter of much doubt.

Nora Trevarrow was born July 4, 1910, and was one of a family of eight children. There are four sisters and three brothers living. The oldest sister is the wife of Walter Morse of Townshend. Another sister is Miss Lillian Trevarrow, who is employed in Rice's restaurant in Brattleboro.

VETERAN TEACHER RETIRES.

Mrs. Lois C. Moulton, who has taught 152 Terms—Is 76 Years Old.

Mrs. Lois C. Moulton, Vermont's veteran teacher, has retired after 61 years of active, effective work. She holds the record for long time service in Vermont if not in New England. The 15th of next month Mrs. Moulton will celebrate her 76th birthday. She recently completed her 152nd term of school and has returned to her home in East St. Johnsbury to spend her declining years in her comfortable village home, built with the fruits of her years of labor in the school room.

Mrs. Moulton's long, and in many ways remarkable, career was begun in the schools of Concord, when she was 15 years of age. She was born in Waterford and educated in the schools there and at Reed's Ferry, N. H. Her teaching field has included many of the towns of northern Vermont and none can measure the deep impress made upon the lives with whom she has come in contact. She has numbered among her pupils men now prominent in the business and professional world, and the children, grandchildren and great-grandchildren of her first pupils have sat under her teachings.

Mrs. Moulton has been in frail health for the past year but with retirement from active work, her many friends hope she will rally to enjoy years of a richly

earned vacation in her pleasant village home.

SET FIRE TO BROTHER.

Rutland Infant Was Terribly Burned and It Inhaled Flames.

Rutland, April 14.—Morris Proulx, a little chap three and a half years old, who is the son of Mr. and Mrs. Albert Proulx of Strong's avenue, applied a torch to his baby brother, Cecil yesterday while at play. When his mother was away for a few minutes the lad took a stick of wood and poked one end of it into the stove until it was afire and then applied the blazing brand to his little brother's clothes.

The mother supposed the baby was perfectly safe and out of harm's way, but, returning to the room a few minutes after leaving the children, she found the baby's body enveloped in flames. Not stopping to think of consequences to herself, she was very badly burned about the hands in trying to extinguish the blaze.

Dr. F. H. Gobeault was immediately summoned and the little sufferer was rushed to the Rutland hospital in the physician's automobile. Dr. C. A. Gale was called and helped dress the burns.

The baby, who is about a year old, inhaled the flames and smoke as well as being terribly burned externally and is in a critical condition.

FOOD LECTURES ARRANGED.

Miss Bessie M. Thayer To Speak in Many Communities.

During the months of April and May, Miss Bessie M. Thayer, home economics specialist of the Vermont agricultural extension service, will give a series of demonstrations and lectures before the smaller women's clubs of Vermont. Miss Thayer's discussion of "The Principles of Food Selection" is intended to explain the fundamentals of food requirements of the body, how various foods meet these requirements, what constitutes true economy in choice of foods and how preparation affects food value. As an alternative a demonstration on "Seasonable Dishes for Spring Menus" is offered. The latter not only brings out clearly the things taken up in the discussion, but emphasizes some of the ways in which diet may be made to replace the customary spring tonic.

During the first week 277 people attended the first two meetings held at Northfield, Rochester and Bethel. The remainder of Miss Thayer's schedule follows: April 10, Wells River; April 11, Norwich; April 12, Bradford; April 13, Thetford; April 18, Barre; April 19, Cambridge; April 20, Jeffersonville; April 21, North Troy; April 25, East Shoreham; April 26, Orwell; April 27, East Wallingford; April 28, Mt. Holly; May 2, Fair Haven; May 3, West Pawlet; May 4, Timonium; May 5, Danby; Four Corners; May 9, Chester; May 10, Cavendish; May 11, Starkboro; May 12, Bristol; May 16 and 19, Windham county.

Missing Man's Note Forwarded.

A lien note for \$4,300 given by Robert E. Coombs of Guilford who left Tuesday because of financial troubles, to Earl M. Nichols of Lyonsville, Mass., was forwarded Wednesday and Deputy Sheriff Frank L. Wellman of Guilford took possession of the large quantity of bee supplies covered by the note. A part of the note has been paid. Attachments have been placed on the buildings of Mr. Coombs in Guilford in favor of Alois Crozier and Leslie Smith of Brattleboro. No definite information of the whereabouts of Mr. Coombs has been received by his relatives, in spite of efforts being made to locate him.

Auction Sale

PERSONAL PROPERTY

As I expect to rent my farm and have quite a lot of personal property that will not go with the farm, I will sell the same at public auction to the highest bidder, at my farm, situated on the East Hill, 2 miles from Cobble Hill creamery and 3 miles from Barre City, on

SATURDAY, APRIL 15
at 1 o'clock sharp in the afternoon, the following:

1 Registered 4-Year-Old GUERNSEY COW

Doris, of Cunningham's farm, No. 42,271, due to freshen in September; 6 YEARLING HEIFERS, 4 of them Guernseys, the other 2 Jersey and Holstein, one ones; 4 heifer calves; 8 sheats that will weigh from 100 to 150 lbs.; 4 5-week-old pigs; 20 pure bred Barred Plymouth Rock hens.

FARM TOOLS—1 light 2-horse lumber wagon, with a new body; set of farm trucks, with rack; 1 horse wheelbarrow; 1 smoothing harrow; 1 McCormick mowing machine, horse rake, 1 endgate seeder, 1 potato planter, potato sprayer, 1 foot mower, 4-wheel dumpcart, 1 rubber Concord buggy, just out of the paintshop, 1 hayfork, 1 hayfork carrier for wood rack; 1 fodder cutter; 1 tank heater; 1 Iron Age potato digger; 1 express delivery wagon, 3 rolls of 5-ft. poultry wire, 2 chicken brooders, 1 new driving harness, 2 sets of pulley blocks and rope.

A LOT OF SEASONED BASSWOOD LUMBER, planed and matched, a quantity of shingles, 4 tons of hay, quite a lot of nice seed potatoes—Irish Cobbler, Golden Wonder and Creamer's Beauty; 5 bushels of barley, 5 bushels of wheat and a bushel of marrowfat beans. Small farm tools, such as shovels, hay forks, manure forks, feed bags, 2 calf feeders, baskets, whiffletrees, 1 23-in. nearly new horse collar and other collars, sweat pads, 4 new 14-in. chains, 8, 10 and 12 ft. long; steel broom, with other articles not mentioned.

This is all good property and will be sold without limit or reserve, as I have no further use for it. Terms at time of sale.

J. A. CUMMING, Owner.
C. F. SMITH, Auctioneer.

Radium Never Seen in Nature.

Radium is a metal and is described as having a white metallic luster. It has been isolated only once or twice and few people have seen it. Radium is ordinarily obtained from its ores in the form of hydrous sulphate, chloride, or bromide, and it is in the form of these salts that it is usually sold and used. These are all white or nearly white substances, whose appearance is no more remarkable than common salt or baking powder. Radium is found in nature in such exceedingly small quantities that it is never visible even when the material is examined with a microscope. Ordinarily radium ore carries only a small fraction of a grain per ton of material and radium will never be found in large quantity because it is formed by the decay of uranium, a process which is wonderfully slow, and radium itself decays and changes to other elements so rapidly that it is impossible for it to accumulate naturally in visible masses. Minerals that carry radium, however, are fairly easy to determine. One of them, pitchblende, as generally found, is a black mineral about as heavy as ordinary iron, but much softer. The principal radium mineral, carnotite, has a bright canary-yellow color, and is generally powdery. There are other radium-bearing minerals of less importance.

Life Is a Stage

where every man must play his part. Your part is squarely up to you and no man's part is complete until he has insured his life for what it is worth to those nearest him. National Life Ins. Co. of Vt. (Mutual), S. S. Ballard, general agent, Rutland building, Montpelier, Vt.

WHEN THE FEET BURN

For sore, tired, aching feet, reduce the inflammation that causes itching, burning and swelling by applying Minard's Liniment as directed. Any druggist will supply you with a bottle of this wonderful, delightfully creamy liniment. It soothes and cools, does not stain and is absolutely effective because of its healing, antiseptic properties. It gives relief quickly. It frees you from foot misery.
